OUR PURPOSE

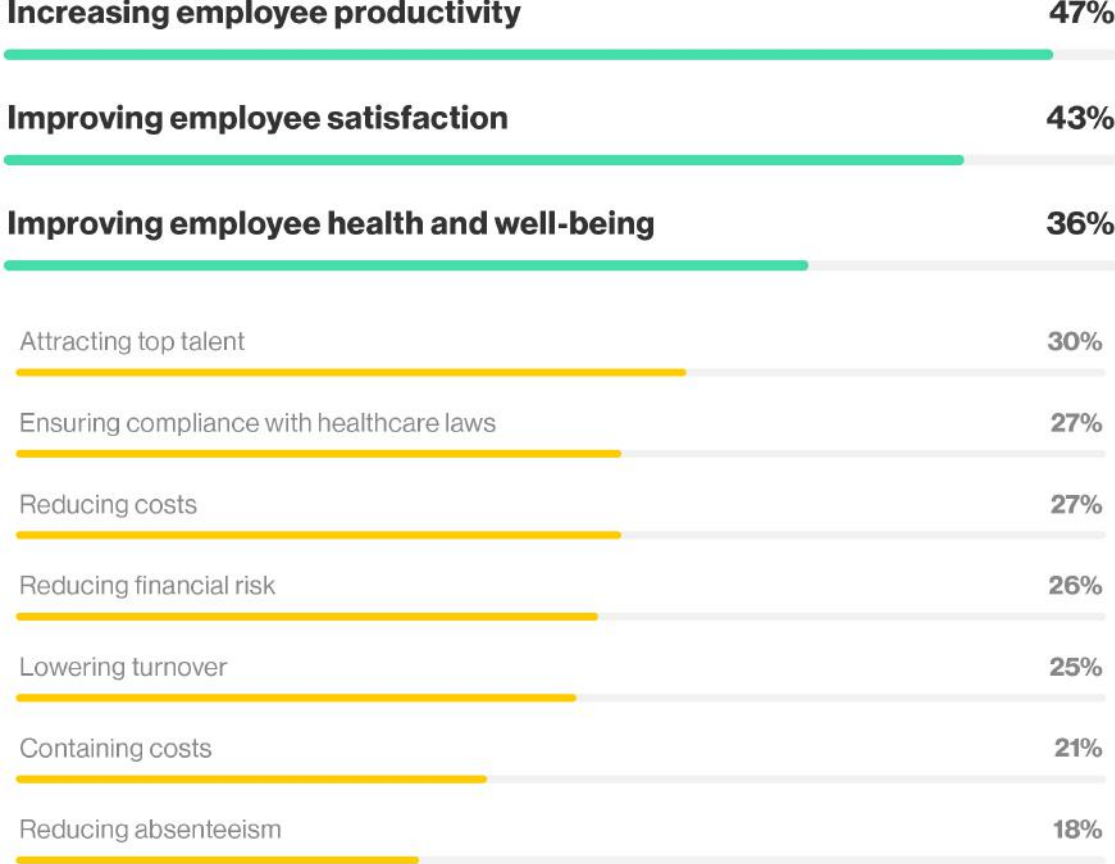

Turn the world's health data into great healthcare everyone can afford.

OUR APPROACH

We empower U.S. employers and their advisors to optimize health benefits using data.

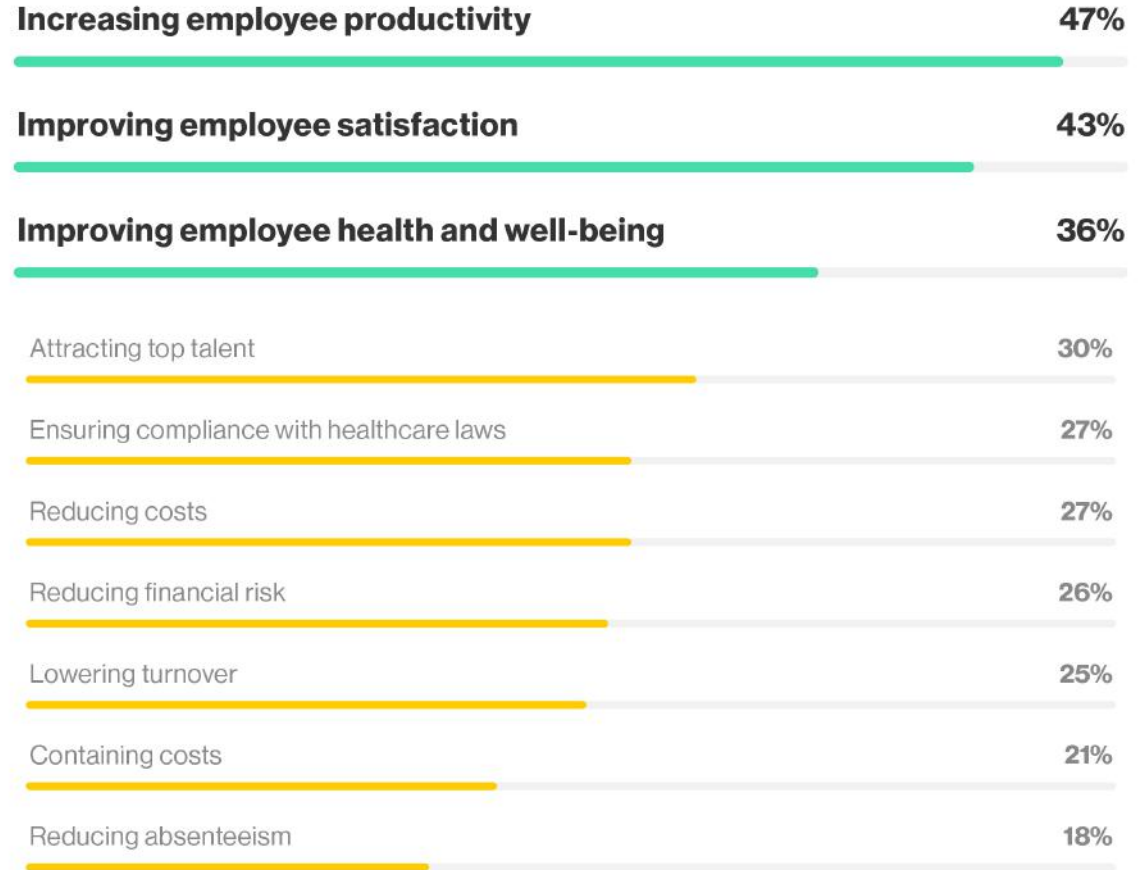

Organizational goals benefits leaders are trying to achieve:

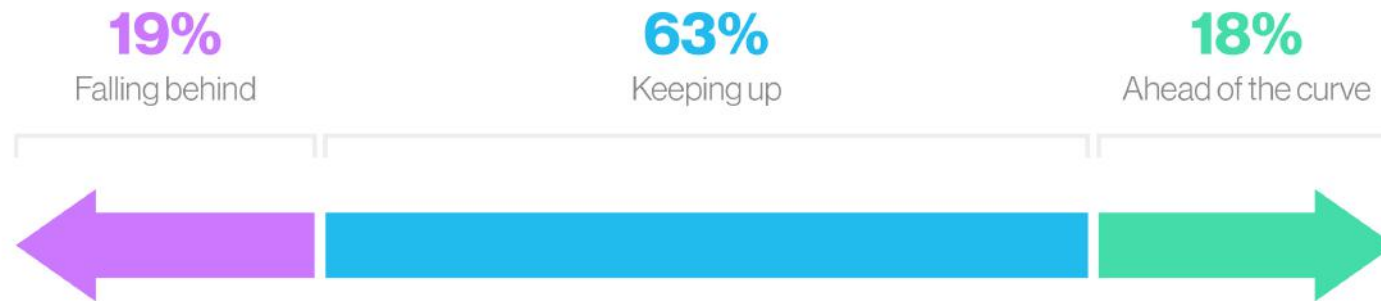

Organizational goals benefits leaders are trying to achieve:

What are your organizational goals and priorities?

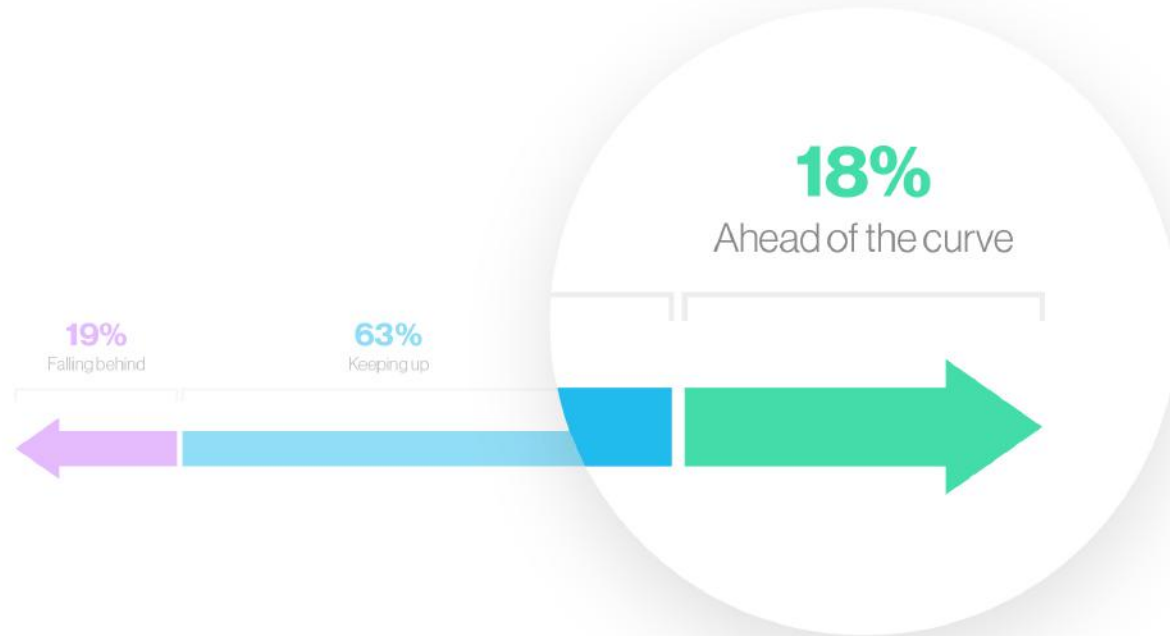

Only 18% of employers feel like they're ahead of the curve.

Why do you think this is?
Do you agree?

Benefits leaders who were ahead of the curve...

“Analytics solutions”

“Actionable insights”

“Business intelligence solutions”

“Data”

“Meaningful actions”

of benefits leaders say data is necessary to design and manage an effective program

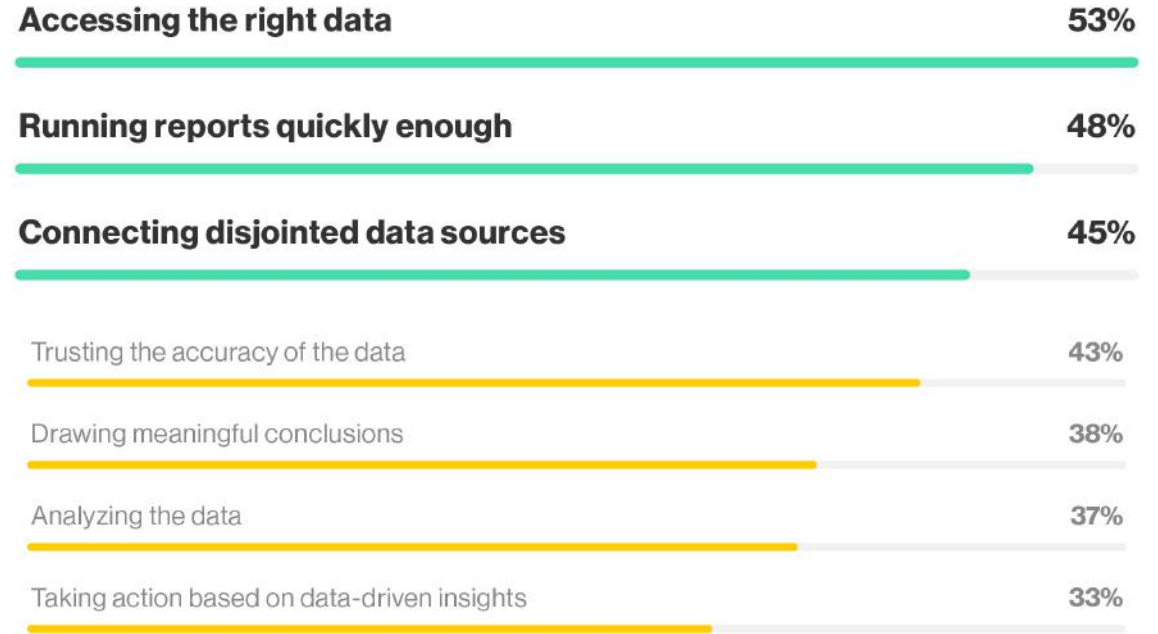

88%

of benefits leaders know
data is the key to effective
program management.

But so many still
aren't doing it
or doing it well.

**Why? What should
advisors do to make
it possible?**

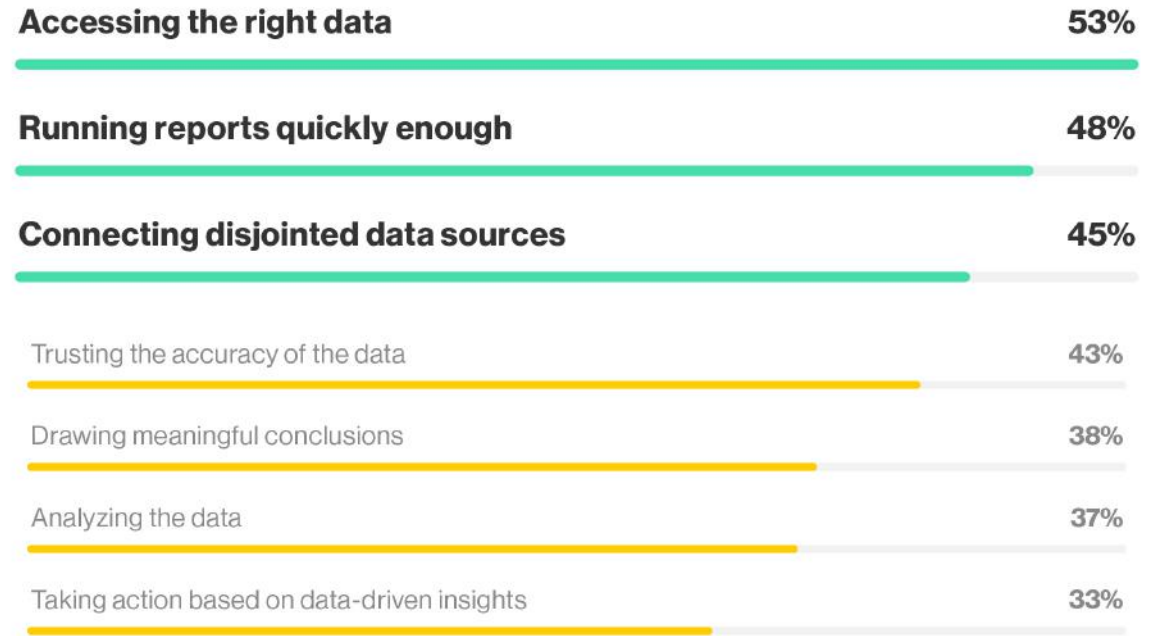

Biggest challenges with current data:

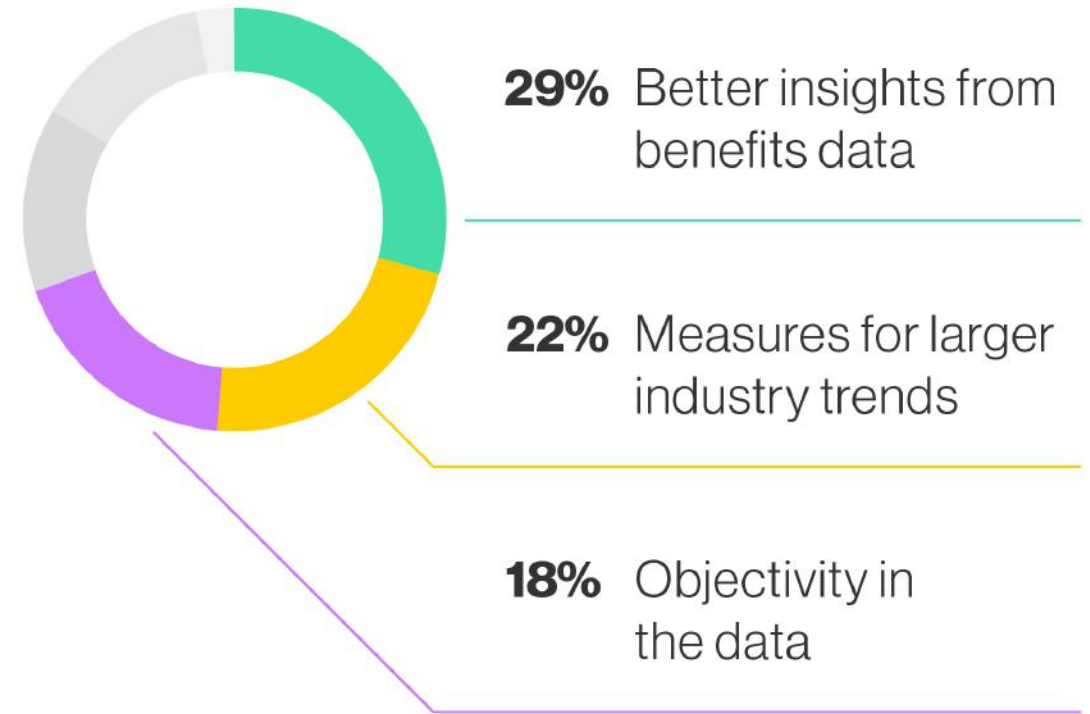

Biggest challenges
with current data:

**What do you do when
you run into these
challenges with data?**

**How do you
overcome them?**

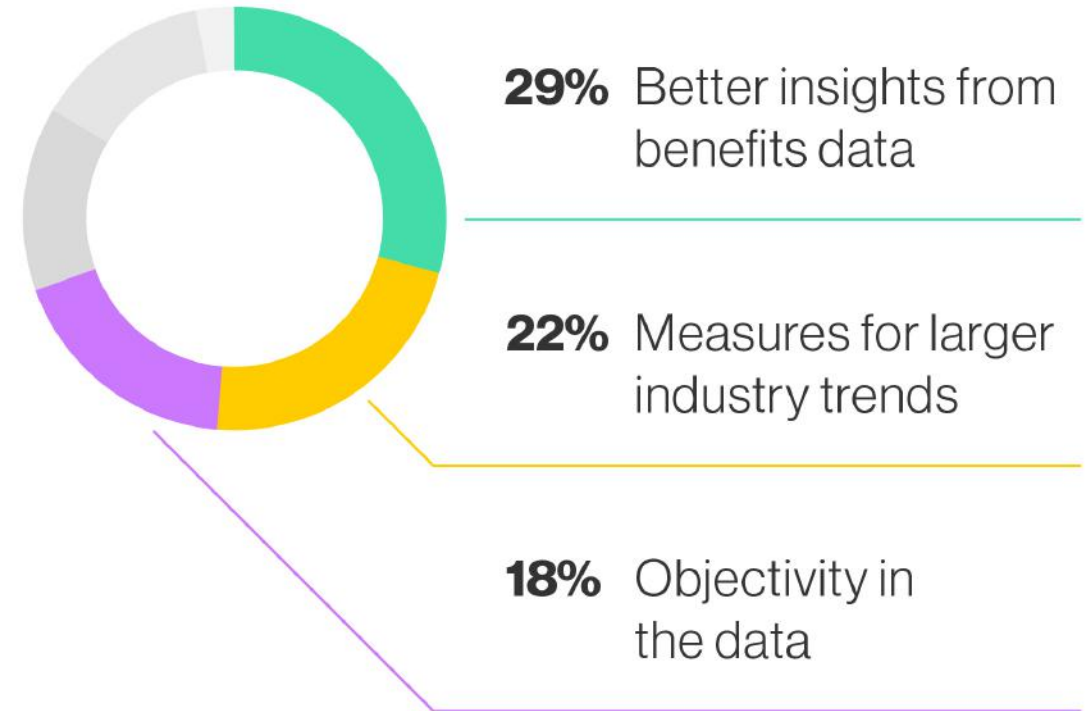

What benefits leaders feel is most important to a strong partnership with their advisors:

What benefits leaders feel is most important to a strong partnership with their advisors:

What makes for a strong partnership between employers and their advisors and health plans?

**Who uses the solution
at your organization?**

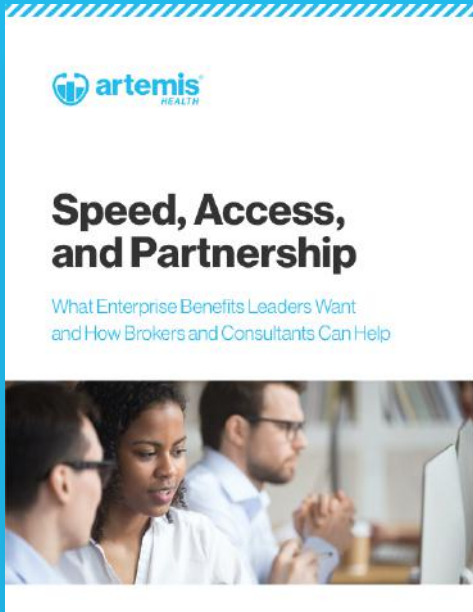

Why is it working?

**Does it allow you to focus
on acting on the data?**
